SOFTWARE · INCIDENT MANAGEMENT EN

EMMA.
Alert, locate, document.

Incident management tightly integrated with TETRA: callout, positions on the map and complete documentation.

EMMA AT A GLANCE

Radio, alert, record.

EMMA is tightly integrated with TETRA, alerts units by callout and documents every event. Server and interface run locally on your own network.

Tightly integrated with TETRA
Status, SDS and position straight from the radio network

Callout and alerting
See channels and recipients in advance, responses in the interface

Forces on the map
Vehicles and units live with their position

Complete documentation
Incident log and report, ready to print as PDF

Multi-desk, local
Several desks at once, on your own network without a cloud

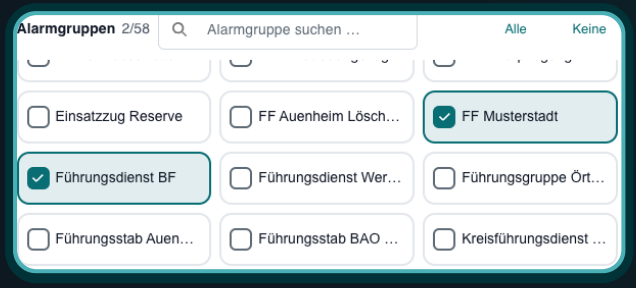

IN USE AT

- Control rooms
- Command vehicles
- Incident sections on site

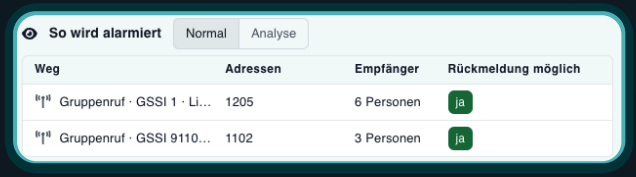

CALLOUT

Alert, with response.

Before you trigger, you see who is alerted on which channel. Afterwards the units respond.

Select alert groups, send the alert. All images: demo mode with fictitious data.

Preview “How the alert is sent” with channel, address and recipients.

ALERT CHANNELS

- TETRA callout
- Group call
- SDS
- Mesh radio
- Voice announcement
- ZBE signals

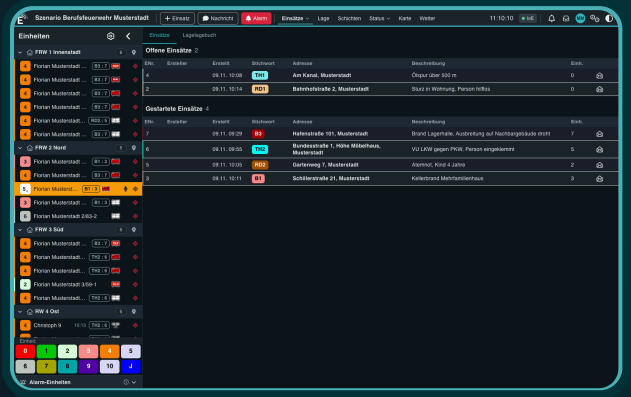

Coming · later · not

Incident response directly in the interface

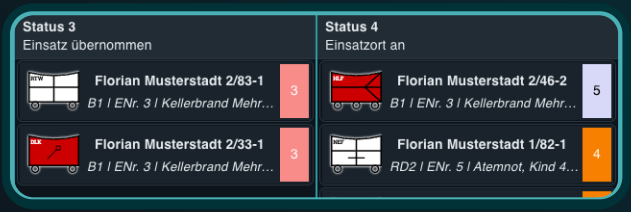

TETRA

Tightly integrated with TETRA.

Status, position and SDS come straight from the radio network. The connection runs through the IoeServer to the TETRA radios.

Incident overview: open and running incidents, on the left every unit with its TETRA status.

Status board: every unit with its status, reported directly via TETRA.

Status 1–9

directly via TETRA, freely named

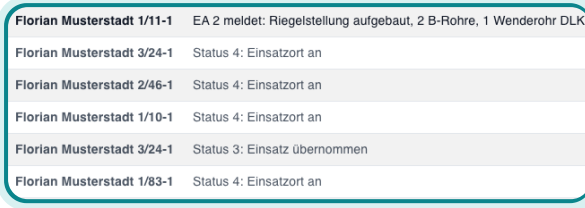

SDS

Messages to vehicles, with a preview of the recipients

DOCUMENTATION

Every event in the log.

Radio traffic and events go into the incident log automatically.

Florian Musterstadt 1/11-1	EA 2 meldet: Riegelstellung aufgebaut, 2 B-Rohre, 1 Wenderohr DLK
Florian Musterstadt 3/24-1	Status 4: Einsatzort an
Florian Musterstadt 2/46-1	Status 4: Einsatzort an
Florian Musterstadt 1/10-1	Status 4: Einsatzort an
Florian Musterstadt 3/24-1	Status 3: Einsatz übernommen
Florian Musterstadt 1/83-1	Status 4: Einsatzort an

Status reports and radio messages of the units in the incident log.

Report as PDF
Log, incident, alert telegram and shift report, ready to print

Filter and search
By radio, automatic entries, faults or section

Tactical map to DV 102
Tactical symbols and incident sections as a complement

Local on your own network
Linux ARM or x64, used in the browser on PC, tablet and smartphone
