IN USE

- **Ambulances**
- **Driver position in emergency vehicles**

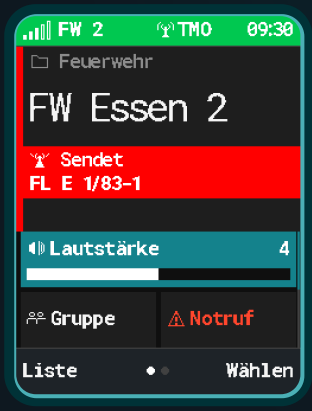

DISPLAY

Everything in view, in your hand.

Line with group, speaker and status, group change and emergency call – with data from the IoeServer.

Line with group and status

Speaker on the line

Group change

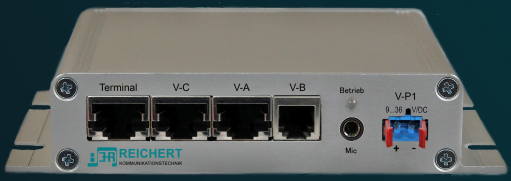

Emergency call

ON THE ATL-IP MODULE

Serial on the module, LAN to the network.

The TALKpit connects serially to port V-C of the ATL-IP module. The module itself is connected to the BOS-Compact via LAN and provides the link to the IoeServer.

ATL-IP module: the audio unit of the workstation.

- No further audio parts: display, keypad, earpiece, microphone and talk key are in the handset.
- Advanced and Xtreme connect the same way.
- Only the Advanced can also be combined with AfVis on a monitor.
