UniKey-Navigator.
Navigate. Talk. Send status.

Rugged 8″ tablet for the driver's seat: route guidance from SDS coordinates, radio operation and status in one device.

UNIKEY-NAVIGATOR AT A GLANCE

One device at the wheel.

The UniKey-Navigator works directly on a radio or together with the REICHERT ZBE.

Guidance
From incident coordinates

Radio control
Directly on the display

Status
Send via menu

8” or 10”
Rugged, IP67, 1000 cd/m²

Vehicle dock
Network, radio and power

Reversing camera
Optional

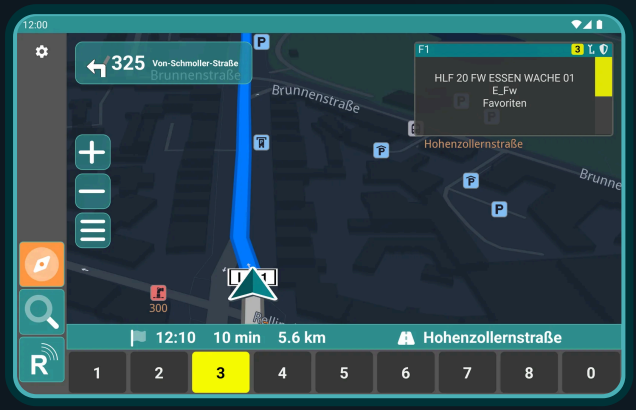

IN USE

- **Emergency vehicles**
- **Driver position in command vehicles**

NAVIGATION

Straight to the incident.

Incident coordinates received via SDS are evaluated, then route guidance starts automatically.

Route guidance with talk group and status right on the map.

- Incident coordinates received by radio, route guidance starts automatically
- Display of the current talk group
- Call signs (OPTA) of other users on the map
- Display of the requested status and unread messages
- Send status via freely designed menus

IN THE VEHICLE

Fixed in place, quickly removed.

The mount with pogo contacts provides LAN, serial interfaces, USB and ignition detection; the tablet comes out with one hand.

Tablet in the vehicle mount.

- Vehicle dock with connections for network, radio and USB
- IP67, glove and wet touch
- Removable and usable as a mobile tablet
- Video input for reversing camera
